Your New Year Will Be What You Make It

Self-evident as this statement may seem, it is one well worth considering on the eve of a new year. This year has nearly passed and with it both the mistakes and the successes you have made. Nineteen and twenty-three lies before you unsullied and unspoiled waiting for your molding influence.

The general indications are that 1923 will be a period of greater economic stability generally, but it will not be for you unless you, as an individual, make it so. Economic stability means "money in the bank." It means the knowing use of such a financial institution as the Boone County Trust Company, its advice and its service.

Starting a bank account with this institution during the first week of 1923 is the laying of the cornerstone for a structure of independence and happiness not only for the New Year, but for all years to come. Make the first deposit on January 2. Every day wasted is a day lost.

On the Eve of the New Year We Wish
You Increasing Prosperity, Good
Health and Happiness.

Boone County Trust Co.

"A Service Built Institution"
Available Resources \$2,000,000.

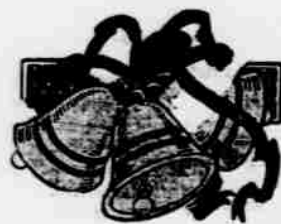

Opportunity Knocking

Will you let it in? For the first ten days in January I am going to make special prices and terms on Park Hill Lots, the new and beautiful addition to Columbia.

The prices will be \$850 and \$1600 including an interest in the park and the perpetual park maintenance fund. This is just half what these close in and well-arranged lots should and will bring. But I want to sell a limited number just to get things started. After January 10, the price will be higher. Terms: 10 per cent down, 1 per cent per month until paid for, with privilege of paying as much more as you wish. When your lot is paid for I will either build you a home, or finance you to build your own, and let you pay for it just like paying rent. Don't miss this opportunity of starting the new year right.
